VL Series

Features

- Stainless steel construction, fluorocarbon FKM O-ring
- Available in tube sizes from 1/16" to 1 1/2"
- Temperature rating: -25 to 400°F (-31 to 204°C)
- Knurled nut for easy, finger-tight assembly
- Reliable, repeatable sealing performance

Testing

- VL Series vacuum tube fitting design has been helium leak tested to a maximum leak rate of 4×10^{-9} std cm^3/s at ambient temperature.
- The leak rate increases as temperature increases due to permeation through the O-ring.

Cleaning and Packaging

- VL Series vacuum tube fittings meet the requirements of FITOK Standard Cleaning and Packing.
- VL Series vacuum tube fittings are cleaned to remove machine oil, grease and loose particles.

Ordering Information

- The E dimension refers to the smallest nominal inside diameter of the part.
- To order straight fittings bored through, add T before the fitting type.

Example: SS-TU-VL6
SS-TCM-VL8
